

# Omagh Motor Club

## Bulletin No.1

It is evident as we drive around the forests that we intend to use for our rallies, and for other forest roads in the vicinity of these stages, that illegal testing (cheating) is taking place by some members of the rallying fraternity. This is bringing us as a club into conflict with the local foresters and puts future gravel events in jeopardy. We therefore declare that any competitor detected in any forest property in a competitive car or without proper authorisation will be excluded from doing our events for the foreseeable future and reported to MSUK or MSI.
